May 22, 2020

Dear Reiche Families,

From June 1 through June 12, schools will transition to provide differentiated instruction and directed support, based on students who have not had the opportunity to meet grade level standards. They will receive direct support in an effort to bring them closer to meeting standards. This will be a “Sun School” (a form of early summer school).

As you know in Portland, because of the pandemic, many children have not had equitable access to education due to a variety of issues including a lack of internet and computing devices. Here at Reiche, **Sun School will run from June 1 - June 12** and will provide an opportunity for selected students to receive support and time to continue their learning. No students will be retained as a result of this pandemic. We will keep attendance for students attending each day of Sun School.

For students who are meeting standards, the district will also provide optional enrichment lessons and activities. Families who want their child to continue with a school structure in June can utilize the suggested schedule and lessons. These will be designed by our specials teachers, Extended Learning Coordinators and Academic team.

Your child will receive communication from one of his teachers whether or not he is invited to Reiche Sun School. In addition, all students will be invited to end of the year celebrations. Please check your child’s classroom website or contact your classroom teacher for more information.

Sincerely,

Lori Bobinsky                              Ted Hummel                              Renee Serio
